9.8 CGPA

PERSONAL PROJECTS

Third Eye for Visually Impaired People - Prototype
- A wearable smart system to help visually impaired persons (VIPs) walk by themselves through the streets. The system employs a set of sensors to track the path and alert the user of obstacles in front of them. The user is alerted by a sound emitted through a buzzer and by vibrations on the wrist, which is helpful when the user has hearing loss or is in a noisy environment.

Full Stack - Ecommerce Website
- A Ecommerce website using MERN Stack with searching, filtering, payment processing and email alert.
- Front-End : Html, CSS, JavaScript, React(React-Hooks), Bootstrap
- Back-End : Node.js, Express, MongoDB

News Articles Recommendation
- A news article recommendation is an application used to provide similar news articles for users based on their history.
